For National Safety Magazine

Innovative glasses for a safe workplace

There are many occupations – construction, engineering, fabrication and mining to name a few – where safety glasses are essential.

The Safety Show Sydney, to be held from October 25-27 at the Sydney Showground, Sydney Olympic Park, will showcase advances in eyewear among hundreds of other innovative products and services.

From the New Eye Company comes the IC safety system that enables users to simply release the scripted lenses from their frames and re-insert them into new protective frames should the need arise.

The system comprises a wrap around frame with fixed lenses and an 'Astralon optical foil' – a flexible plastic inner frame that can be fitted with a person's prescription lenses. The Astralon foil slips into place beneath the outer frames, which take the brunt of any wear and tear or impact.

Ugly Fish, a leading Australian sports and safety eyewear brand, will feature wraparound sunglasses designed to protect the eyes. All the lenses in the safety eyewear range comply with AS NZS standards, are optically correct with no distortion, have anti-fog and anti-scratch coatings and are suitable for use with hard hats and earmuffs

Concurrently running and co-located with The Safety Show Sydney will be Sydney Materials Handling and Bulkex.

To register or for more information, go to thesafetyshow.com.au or call 03 9654 7773.
